

## **King James's School**

### **University Application Information for Parents**

During the Post-18 Options days in June, there was a programme of events designed to encourage Year 12 students to think about life beyond King James's. This included outside speakers and various training sessions, in preparation for the university application system (UCAS) and life beyond KJS.

Students who are applying, or thinking of applying, to university have been asked to complete the following sections on the UCAS on-line application form

- Personal Details
  - Additional Information
  - Student Finance
  - Education
  - Employment
- 
- Students have also been asked to work on a draft personal statement.

The drive to have these sections completed before September is in recognition of the time students will have over the summer and ahead of the academic pressure of Year 13 study. It will also be advantageous for students to complete the application procedure as early as possible.

Non-UCAS applicants have been encouraged to complete a CV and draft letter of application.

If you require any further details or information regarding the process please do not hesitate to contact us. A reminder of the King James's, and UCAS, deadlines are available from the Sixth Form Office.

We appreciate your continued help and support in the application process.

Many thanks

Sixth Form Team
