November 2020

Dear Parent/Carer

GCSE SCIENCE REVISION GUIDES

We are recommending the following revision guides to accompany our GCSE Science courses. Most students find the guides helpful when doing homework, as well as using them to revise for tests and exams. They have been designed to assist in knowledge recall and organisation, as well as deliberate practice in preparation for the examinations. These are available to order through school.

The total prices for revision guides are:

Triple Science students: £12.50 (Physics, Chemistry and Biology revision guides)

Double Science students £9.50 (1 Combined Science revision guide)

If you wish to purchase revision guides payment should be made online via ParentPay (www.parentpay.com) by **Monday 23rd November**. Whilst this is the deadline for orders to be placed delivery times will vary dependant on current restrictions due to Covid-19.

Science teachers will be able to advise double Science students regarding choice of Higher or Foundation, however the books are very similar for both. If in doubt, Foundation is advised as it is essential to have a good grasp of the basics.

It is hoped that all Year 10 students will request revision guides as the school is ordering at a greatly reduced price from the publisher. No student should be disadvantaged by not having this resource, if the cost causes difficulty then please contact me on the school number.

Yours sincerely

Mr Martyn Johnson
Head of Science
