- **IMPORTANT NOTES TO PARENTS/STUDENTS**
- The timetable shows the planned days and times of the subject mocks taking place over the fortnight of 17th January to 29th January.
- The exams are based on the revision work that has been taking place since December.
- **We have had to locate the examinations in our normal lessons and classrooms. As communicated prior to the Christmas break, this is due to Covid guidance changes and our capacity to use the larger spaces.**
- Mock assessments for practical subjects are being arranged for appropriate times after these two weeks.
- Students who have access arrangements requiring a space separate from the main examination hall will receive that support.
- Students requiring extra time will receive that time.
- It is very important for the students to arrive on time to the lesson, in order to begin the exams promptly.
- Although in classrooms, the mocks will be conducted in examination conditions.
- Students should bring all equipment needed to the exam, including calculators where allowed. Pencil cases should be clear plastic.
- Water in clear plastic bottles with no label is allowed.
- Watches/FitBits/mobile devices etc. are not allowed in the student's possession.
