

YEAR 10 GEOGRAPHY GCSE EXAMS - REVISION PROGRAMME

You need to start revising for your end of year exams which **start on 9/5/22**. You will be tested on the Challenge of Natural Hazards and Living World. You need to follow the revision schedule.

You will need to use your learning journeys (which are also at the front of the chapters in your revision guide) with your exercise book and revisions guide to make revision notes. The paper will be one hour long and you won't be able to use your notes.

WE WILL CHECK YOUR REVISION NOTES EVERY WEEK

Resources to use

- Your exercise books
- Revision guides
- AQA Tutor2u revision blasts - estream
- Word lists (at the back of your book) www.quizlet.com
- Create mind maps, use mnemonics, post it note displays, revision clocks
- White workbook – you need to complete both chapters
- www.senecalearning.com. – test your knowledge

Revision programme

DATE	
28/3/22	Natural hazards – Tectonic hazards p17-23 blue/ p 4-8 white <ul style="list-style-type: none">• Plate boundaries• Why live in a risk zone• How can we reduce the risk from hazards• Earthquakes – Chile and Nepal (effects and responses)
4/4/22	Natural hazards – Climatic hazards p24-32 blue/ p9-13 white <ul style="list-style-type: none">• Global atmospheric circulation• Formation and structure of tropical storms• Typhoon Haiyan – effects and responses• Extreme weather events in the UK• Somerset Levels flooding
EASTER HOLIDAYS	Natural hazards – climate change p33-37 blue/ p14-17 white <ul style="list-style-type: none">• Human and physical causes• Evidence and effects of climate change• Mitigation and adaptation
EASTER HOLIDAYS	Living world p38-41 blue/ p18-19 white <ul style="list-style-type: none">• Food chains and food webs• Small scale ecosystems – ponds• Biomes
25/4/22	Living world – Tropical rainforests p42-46 blue/ p20-24 white <ul style="list-style-type: none">• Characteristics – climate, soils and plant & animal adaptations• Malaysia – causes and impacts of deforestation• Managing rainforests in a sustainable way
2/5/22	Living world – Hot deserts p47-51 blue/ p25-28 white <ul style="list-style-type: none">• Characteristics – climate, soils and plant & animal adaptations• Thar desert – opportunities and challenges of living in hot deserts• Desertification – causes and reducing the effects (Great Green Wall v Magic Stones)

How to revise

The key is apply your knowledge. Don't just re-write notes and copy them out. Practice and learn them! Here are some strategies that will help you. Remember to switch off your phone and find a quiet place to work. If you can get someone to test you that will really help.

Mnemonics - Teaching Strategy

Help students retrieve information using this memory technique

Why Use Mnemonics?

MEMORY EXPERTS USE MNEMONIC TECHNIQUES TO MEMORIZE HUGE AMOUNTS OF INFORMATION

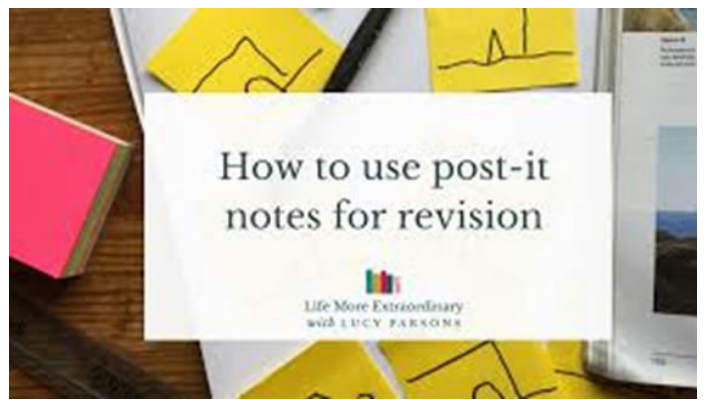

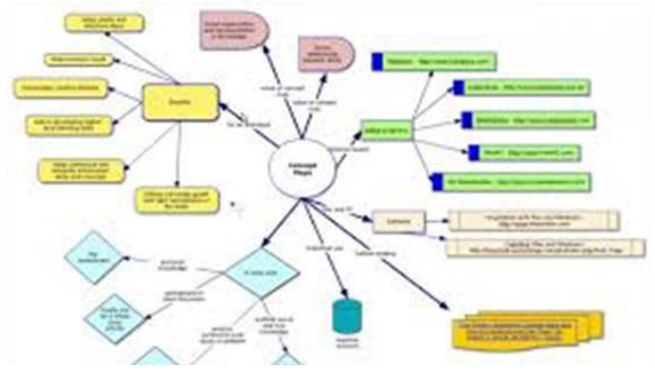

Short term memory can only hold limited information.

Mnemonics are used for memory retrieval

How to Incorporate?

By grouping smaller bits of information into larger groups, more information is retained.

Example: PEMDAS

Retrieval Practice

HOW TO DO IT

Put away your class materials, and write or sketch everything you know. Be as thorough as possible. Then, check your class materials for accuracy and important points you missed.
