Using one of the above past exam themes develop your next body of work in connection to this. Remember to consider the genre that you are exploring overall within your work as at a later point in the course all projects will merge under one title.

Over this project, you produce up to 10-20 shoots, at least 1 every two weeks. These shoots will be presented over a double page spread with Thumbnails, contextual references and then a small selection of edits. Interlaced with 5-6 Photographers studies/ transcriptions.

(Within each shoot retain up to 2 images that are presented at the end of your book in your controlled assessment period.)
