

KING JAMES'S SCHOOL

KNARESBOROUGH

Explanation of Learning Cycle Report Information for Parents 2023/24

Year 12

A level targets are set using Fisher Family Trust target setting data. This comes from national prior attainment data including GCSE results. It is a single grade per subject and is set to be realistic, but aspirational.

The report also contains the teacher's forecast grade based on the work completed at that point and their judgment on the most likely outcome in the final exams.

PLEASE NOTE: 2023 A level grade boundaries were significantly altered to match student performance with 2019 pre-pandemic results. This is unlikely to occur to the same extent in 2025, but this post-pandemic period has created some uncertainty over the expectations of the awarding bodies. The targets are a fair reflection of 2019 and 2023 expectations.

A student may not have received targets if there is no GCSE prior attainment data or they are new to school.
