Textbook - if you don't have a textbook for whatever reason, please speak to Mr. Foley or Mr Philpott

Exam Content: Below is an overview of the exam papers.

We recommend that you follow the revision schedule set out below for each week in preparation for your summer exams. While revising you should:

- Create your own revision notes by choose the technique that works for you or ask your teacher or for suggestions if you are unsure.
- Put your class notes, homework's and textbook information into a revisable format.
- Get someone to test you.
- Do exam practice which are available on the OCR website
- If you are already revising and have your own plan, you don't have to follow this plan.

The 'Economics Revision Schedule' should be used in conjunction with check sheet issued in lesson

When	Topic	Revision Notes	Exam Practice
Week 1	The Economic Problem		
19 th Feb	The problem of scarcity and the requirement to make choices		
	Rationality as a way of understanding the behaviour of economic agents		
	The different objectives of the economic agents in an economy		
	The allocation of resources		
	Economic efficiency: productive and allocative efficiency		
	The effectiveness of incentives on the behaviour of economic agents		
	and resource allocation. The allocation of resources in the different		
	economic systems (market, planned and mixed)		
	Opportunity Costs		
	Movements along a production possibility curve (PPC), Shifts of a		
	production possibility curve (PPC), The usefulness of the concept of		
	opportunity cost		
	Specialisation and trade		
	The role of specialisation and the division of labour in addressing the problem of scarcity		
Week 2	Demand		
26 th Feb	The relationship between price and quantity demanded. Individual		
	and market demand, Joint, competitive and composite demand.		
	Movements along the demand curve (extension/contraction), shifts of the demand curve (PASIFIC)		
	Supply		
	The relationship between price and quantity supplied.		

		1	
	Individual and market supply, Joint and competitive supply.		
	Movements along the supply curve (extension/contraction) and shifts		
	of the supply curve (PINTSWC)		
	The impact of changes in demand and/or supply in one market on a		
	related market(s)		
	Consumer and producer surplus		
	The impact of changes in price on consumer and producer surplus		
	Elasticity of demand and supply		
	The relationship between PED and a firm's total revenue		
	Factors which determine the value of PED, YED, XED and PES		
	The usefulness and significance of PED, YED, XED and PES		
Week 3	The concept of the margin		
4th March	Total and marginal utility, diminishing marginal utility and the demand		
4 March	curve		
	Business objectives		
	Maximisation and non-maximisation objectives and factors which		
	influence the choice of objectives		
	Costs and economies of scale		
	The law of diminishing returns, internal and external economies of		
	scale, diseconomies of scale and the minimum efficient scale		
Week 4	Aggregate Demand		
11 th March	The relationship between aggregate demand and price level.		
/ /vidicil	Shifts in the aggregate demand curve		
	Aggregate supply		
	The relationship between aggregate supply and price level in the short		
	run and long run.		
	Shifts in the aggregate supply curve in the short run and long run		
	Effects of changes in aggregate demand and aggregate supply on		
	macroeconomic indicators		
	The multiplier and the accelerator		
	Factors which determine the size of the national income multiplier		
	Causes and consequences of an output gap		
Week 5	Economic policy objectives		
18 th March	Economic growth		
10 Maich			
	Causes and consequences of economic growth in the short run and		
	long run		
	Development		
	The relationship between economic growth and sustainable		
	development. The usefulness of macroeconomic measures such as		
	GDP, the Human Development Index (HDI) and other alternative social		
	and cultural indicator		
	Employment		
	The types of unemployment and measurements including the labour		
	force survey and claimant count.		
	·		
	Causes and consequences of unemployment and the effects of full		
347 1 1	employment		
Week 6	Inflation		
25 th March	Inflation, deflation, disinflation, and hyperinflation		
	Measuring inflation using the Consumer Prices Index and Retail Prices		
	Index and causes and consequences of inflation and deflation		
	The Phillips Curve		
	Short Run and Long Run Phillips Curve		
	The usefulness of the Phillips Curve for macroeconomic policymakers		
	Balance of payments		
	The components of the current account: trade in goods, trade in		
	services, primary and secondary income		
	The policy objective of a sustainable balance of payments position		
	Causes and consequences of imbalances on the BOP.		
	Exchange Rates and Marshall Learner		
	Trends in macroeconomic indicators over time		
Week 7	Income distribution and welfare		
1st April	Income and wealth		

	To: 12 12 12	
	Distribution and inequality	
	The policy objective of a more even distribution of income (Lorenz	
	Curve)	
	Absolute and relative poverty	
	Inequality data; Gini coefficients and relevant quartiles	
	Causes and consequences of poverty and inequality	
	Fiscal Policy	
	Government budget	
	progressive, proportional and regressive taxation Current and capital	
	government expenditure Budget surplus, deficit and balanced budget	
	Cyclical and structural budget position	
	Discretionary fiscal policy and automatic stabilisers	
	The Laffer curve	
	The effectiveness of using fiscal policy to achieve the government's	
	macroeconomic objectives	
Week 8	Monetary Policy	
8 th April	Changes in interest rates, Changes in money supply, Inflation rate	
	targets, Quantitative easing, Influence of exchange rates	
	The effectiveness of using monetary policy to achieve the	
	government's macroeconomic objectives	
	Supply Side Policy and Policy Conflicts	
	Privatisation, deregulation and subsidies Competition policy	
	Investment in infrastructure, education, training, research and	
	development, Reforms of the tax and benefit system	
	Improved labour market flexibility, Conflicts and trade-offs between	
	policy objectives	
	The effectiveness of using supply side policy measures to achieve the

Week 11	Market Structures	
29 th April	Perfect Competition - the characteristics of perfect competition	
	Short run and Long run perfect competition, supernormal profit/loss	
	Monopoly - the characteristics of perfect competition	
	Dynamic efficiency, X-inefficiency, Monopoly and supernormal profit in	
	both short and long run	
	Advantages and disadvantages of a monopoly.	
	Monopolistic - the characteristics of perfect competition	
	The advantages and disadvantages of a natural monopoly	
	Advantages and disadvantages of monopolistic competition	
	Oligopoly - the characteristics of perfect competition	
	The characteristics of oligopoly • Non-price competition •	
	Interdependence: kinked demand curve • Types of collusion •	
	Product differentiation	
	Advantages and disadvantages of oligopoly markets	
Week 12	Labour Market and Trade Unions	
6 th May	Demand for Labour	
,	Derived demand for labour, factors affecting the demand for labour in	
	an industry, factors affecting wage elasticity of demand for labour.	
	Productivity and unit labour costs	
	Marginal revenue product theory in relation to employment and wage	
	determination	
	Supply of Labour	
	Factors affecting the supply of labour to an industry. The factors	
	affecting the wage elasticity of the supply of labour	
	Short run and long run supply of labour	
	Economic rent and transfer earnings	
	The interaction of labour markets in a Monopsony, Trade union and	
	Bilateral monopoly	
	The impact of changes in labour market flexibility and mobility of	
	labour. The impact of trade union activity on labour markets. The	
	impact of a monopsonist employer on a labour market. The impact of	
	a bilateral monopoly on a labour market	
Week 13	Market failure and externalities	
13 th May	Marginal social cost, marginal external cost, marginal private cost,	
	marginal social benefit, marginal external benefit and marginal private	
	benefit	
	Information failure including Asymmetric information and moral hazard	
	Evaluate the consumption and production of merit goods • Evaluate	
	the consumption and production of demerit goods	
	Public goods	
	Public goods, private goods and quasi-public goods. The	
	characteristics of a public good; non-excludability, non-	
	diminishability/non-rivalry, non-rejectability and zero marginal cost.	
	The free rider problem	
	Government intervention in markets	
	Taxation, subsidies, government expenditure, price controls, buffer	
	stock systems, public/private partnerships, legislation, regulation,	
	tradable pollution permits, information provision, competition policy.	
	Government failure	
	Evaluate the effectiveness of government intervention and the	
	causes/consequences of government failure	
A m al fin auli.	remember that revision is not just about learning the subject theory. You	

And finally, remember that revision is not just about learning the subject theory. You must know how to write your exam answers.

AO1 Demonstrate knowledge and understanding of the specified content.

AO2 Apply knowledge and understanding of the specified content to problems and issues arising from both familiar and unfamiliar situations.

AO3 Analyse economic problems and issues.

AO4 Evaluate economic arguments and evidence, making informed judgements.
