KNARESBOROUGH

Candidate Information

Note from the Headteacher

Thank you for your interest in working at King James's School.

At King James's School, our core values—Ready, Respectful, and Engaged—are at the heart of everything we do, shaping the attitudes and behaviours of our students and staff alike. Guided by our vision “To set no limits on what we can achieve,” we foster a culture of high aspiration and continuous growth. As a school grounded in unconditional positive regard, we believe that strong, respectful relationships form the foundation of effective learning and personal development. Our relationship-based approach ensures every student feels valued, supported, and empowered to thrive, while our staff are committed to nurturing an inclusive and inspiring environment where everyone can succeed.

We have plenty of skills and qualities that we consider important, but we don't pretend to know all the answers and value opinions from those who bring a fresh pair of eyes. We believe we have a lot to offer to prospective candidates.

First and foremost, the students here are great to work with. We are highly inclusive and we have a strong reputation for delivering outstanding care and outcomes for students with SEND, alongside an enviable output to top university courses from our high-performing A level students. Our A level results place us in the top 20% of providers nationally consistently, year on year.

The local community is very supportive of the school; the catchment area is well defined, and we have excellent relationships with the local parents and carers who choose to send their children here. We are regularly over-subscribed.

The extra-curricular life of the school is rich. Most staff who work here involve themselves in it; there really is a vibrancy here that is difficult to match. We have a committed staff (teaching and non-teaching) who go the extra mile. Almost without exception, our staff go above and beyond the core delivery to enhance the enrichment opportunities for the students.

The ethos here is one of the strengths. Even though we have a charter going back to 1616 we are a very forward-facing school with an open and friendly ethos.

We are demanding of our staff, teaching and associate staff. We believe that our community deserves an outstanding school and we strive to be outward facing, never resting on our laurels and always seeking further improvement. We expect students and staff to embrace challenges and to see resilience and hard work as the route to success. At the same time, we have a very strong commitment to the development and training of all staff, teaching and non-teaching. This is a school in which the opportunities for your personal development are rich.

We believe in collaborative working with other schools. We are proud of the relationships that we have fostered, including taking the lead role within the White Rose Alliance for School Direct and as a member of Red Kite Alliance. We benefit from work across the Federation with Boroughbridge High School.

Thank you for considering King James's School and we look forward to receiving your application.

Information on the Maths Department

The Maths Department team are led by a supportive subject leader and has 11 team members.

One of the primary aims of the Maths Department is to stimulate interest and enthusiasm for the subject. At all Key Stages, standards of attainment are consistently in excess of national averages. We endeavour to develop, in all students, confidence and accuracy in handling everyday maths ideas and techniques. A variety of teaching and learning methods, incorporating both individual and group activities, develop each student's knowledge, fluency and application over time.

KS3 Maths is delivered in line with the new National Curriculum. At Key Stage 4 as well as studying GCSE Mathematics, we also offer the Level 2 Certificate in Further Mathematics and Entry Level Certificates in Mathematics where appropriate. Interest in studying Maths at post-16 is very strong. The A Level Maths course provides a stimulating and interesting base for further study. In addition, we also offer A Level Further Mathematics and Mathematical Studies, a Level 3 Core Mathematics qualification to ensure post-16 Mathematics is available to as many students as possible.

Careful monitoring of all students' performance throughout their time at King James's School enables us to set high and clear targets for each student and give them effective feedback to maximise their potential in the subject.
