

Year 8 – Antarctica

Learning Journey

	Title
1	Where do King Jame's students go on holiday?
2	Types of tourism
3	Physical geography of Antarctica
4	Adaptations in Antarctica
5	Tourism in Antarctica
6	Impacts of tourism in Antarctica
7	The Antarctic Treaty – how can we protect Antarctica?
8	Redesigning Halley VII
9	Climate change and Antarctica

Keywords

Antarctica	A huge land mass found in the southern hemisphere around the South Pole. It is almost entirely covered by the world's largest ice sheet
	The average weather conditions over a long period of time (usually 30 years or more)
	The specific features that have evolved in an animal to allow it to successfully live in its environment
	The discovery (via an expedition) of an unknown environment/area
	An area that is virtually untouched by the impact of humans
	The overuse of an area for the resources it can offer that can lead to a decline in the quality of its environment
	The 1957 agreement signed by many countries that aims to protect Antarctica from the threats of exploitation and exploration
	A person who goes on holiday
	Holidays that take place in remote, challenging environments
	Holidays that happen without contributing to the long-term damage of the area
